FUND INTRODUCTION

Fund Objective
This fund invests principally in high quality Irish commercial property, property-related securities and cash.

Important update: To protect existing policyholders and to manage the Fund in their long-term interests, we reached a decision to:
- Change the pricing basis of Fund from an acquisition to a disposal basis. This change has resulted in a fall in the price of 9.3% in the Fund.
- Impose a six month moratorium on redemptions, including surrenders, and switches.

Fund Strategy
- The fund offers access to industrial, retail and office properties.
- Aviva Investors’ size and presence gives them privileged access to opportunities not available to smaller managers in the Irish property market.
- Once they have invested, their expertise helps enhance the value of their investments. This includes redevelopment, repositioning and transforming Irish commercial property.
- The fund may hold a significant proportion of the assets in cash while Aviva Investors are seeking suitable investment opportunities.
- The fund has liquidity and concentration risks which are not captured by the ESMA risk rating.
- The cash weighting of the fund depends on a number of factors and may vary over time.
